PRISME

THE VEGETAL ISLAND

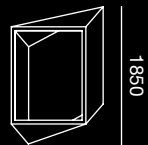

Prisme forms part of a sustainable city vision where life, in all its forms, blossoms. Where nature is accepted with its virtues and its defaults. Left behind for too long, it is now an important component in the development of our cities. To help this transition, Prisme turns out to be the ideal solution to recover nature in artificial urban areas. During a short stay, users will enjoy to be in the heart of greenery. Its refined and geometric style make Prisme an atypical layout which sublimate your spaces.

1
PLANTER

3 - 5

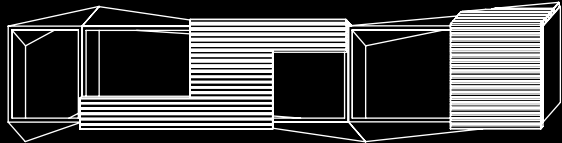

6350 x 1900

C

1 - 4 - 2

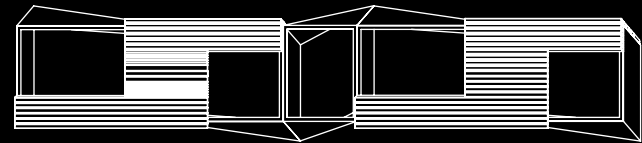

7350 x 1900

D

4 - 1 - 5

8400 x 1850

PRISME

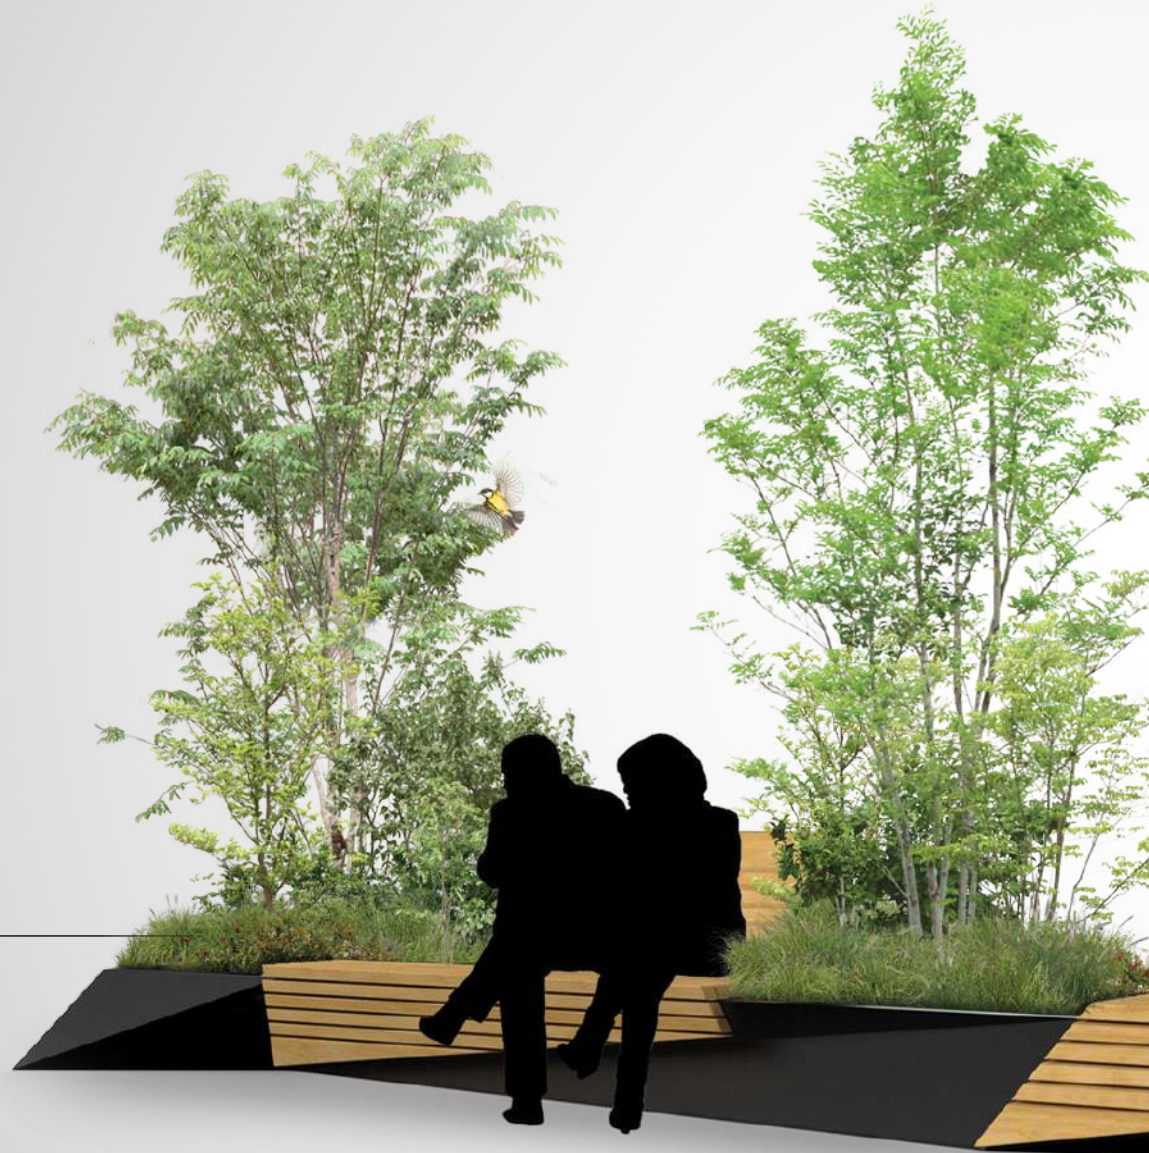

BIODIVERSITY SUPPORT

More than street furniture, Prisme is a space where human and nature will coexist, an experience which will awake senses. This unique layout will allow users to rest, to eat, to discuss. Thanks to its big planters, it will receive a dense and luxurious vegetation, optimal for a lot of animal species. The users will then can observe nature blooming during the whole year.

COMBINATION OF THE MODULES 1 - 5 - 2

FLOWERS

FRUITS

A local and diversified vegetation must be favoured to help different insect species, birds and little mammals. During the beautiful season, insects will can feed with flowers and contribute to pollination. Tall weeds and twigs will serve as materials for birds' nests and constitute plentiful shelters for insects. The latter will be the delight of birds which will feed their babies with it. During winter, birds will feed themselves with fallen seeds, insects will hibernate under plants and the micro fauna of the soil will decompose dead leaves. Regarding human, he will ensure the management and balance of this urban oasis.
